

# Home School Form

Current high school students who have been home schooled for a major portion of their high school years are required to complete the questions below and to submit the following:

1. High School Information (page 5 of application) – Part I by student & Part II by the home school parent/teacher.
2. Written Recommendation by the home school parent/teacher.
3. Character and Citizenship Assessment Form (page 6 of application) to be completed by someone other than a relative, such as an employer, community service advisor, religious leader or coach, who knows the student well and who can attest to his/her citizenship and character.
4. Additional Recommendation by non-family member who has worked with or supervised the student. Examples include a community service leader, clergy member, tutor, employer or coach. (Other Recommendations are optional but helpful if they specifically address areas other than the required recommendations and forms.)
5. Transcript by overseeing organization or parents. Transcript should provide a listing of courses, with brief course descriptions and grades received, if available.

1. What curriculum did you use and was it supplemented in any way?
